MSTINA
CYCLING WEAR

TECHNICAL SPORTSWEAR FOR OVER 30 YEARS

MSTina was founded in 1986 thanks to the entrepreneurial insight of Marcel Tinazzi.

A foretaste of his creative genius is captured in an episode in his sporting career. In 1982, Marcel was still an athlete when, thanks to his drive and determination, he completed the Tour de France despite a fracture in his right navicular bone. That accident led to an innovative idea: to produce a short sleeve jersey with a full-length zip, the first of its kind at that time. It became a success: it was a comfortable, practical jersey, the perfect solution worn by many other cyclists.

The company has always reflected the resourcefulness of Marcel Tinazzi. From great sporting successes, his natural talent led him to become a successful entrepreneur by developing innovative technological solutions for technical clothing and cycling.

SPORTSWEAR INSPIRED BY LIGHTNESS

MsTina is on a mission: to make you lighter. To achieve this goal, we bear a fundamental principle in mind: man is the measure of all things.

MsTina is on a mission: to make you lighter. We strive for excellence in all details, selecting the finest materials to produce high-quality cycling and sportswear using the latest technology. We look at cycling from a different angle to develop the solution that lets you win every challenge.

MADE IN ITALY QUALITY

MsTina is 100% Made in Italy quality:
from researching products to
production and customisation.

All MsTina clothing is developed after carefully selecting raw materials and using the most efficient and innovative processes. The materials used to produce our technical sportswear are Made in Italy, OEKO-TEX certified and road tested by athletes.

MARCEL TINAZZI, FROM ATHLETE TO ENTREPRENEUR

Marcel Tinazzi made his debut in cycling in 1977 and competed in races until 1986.

In his first year as a professional cyclist he won the title of French national champion. One of the most notable successes of his brilliant career was his historic win in the 1982 Bordeaux-Paris race.

Throughout Marcel Tinazzi's career, his greatest secret has been to never stop dreaming, even when he stopped racing on his bike. Also as an entrepreneur, he has successfully applied this spirit to his MsTina business, setting himself the goal of creating high-quality technical sportswear collections, with a special focus on competitive cycling.

INSULATION	● ● ● ● ●
BREATHABILITY	● ● ● ● ○
LIGHTNESS	● ● ○ ○ ○

COMPOSITION:

- Divisible zip
- Fabric with WINDTEX membrane
- 100% with membrane
- Open-topped 3 pockets at the back
- Finishes with luminescent details on the cuff

FIT: SLIM

TECHNOLOGIES:

- WINDTEX®

Winter jacket designed for women. WINDTEX membrane for an excellent wind and water protection. Water-repellent treatment which prevents the fabric from getting wet or stain and keeps dry in order to have a better thermoregulation.

COD: W210101

SHORT SLEEVE JERSEY STYLE WOMAN

TEMPERATURE: 15° / 32°

PERFORMANCE:

WATERPROOF	● ○ ○ ○ ○
WINDPROOF	● ○ ○ ○ ○
INSULATION	● ○ ○ ○ ○
BREATHABILITY	● ● ● ● ○
LIGHTNESS	● ● ● ● ○

COMPOSITION:

- Concealed divisible camlock zip
- Jacquard microfibre with hydrophilic treatment
- Bi-elastic fabric
- Sleeve with raw cut
- Open-topped 3 pockets at the back

FIT: SLIM

TECHNOLOGIES:

- MICROFIBRA JACQUARD
- B-ELASTIC 135

Jersey with "Jacquard" microfibre, hydrophilic treatment for maximum breathability. Our woman line suits the tastes of female athletes who look for a stylish garment without giving up on the performance of the Style line.

COD: W211100

WINTER LONG SLEEVE JERSEY STYLE WOMAN

TEMPERATURE: 5° / 20°

PERFORMANCE:

WATERPROOF	● ● ○ ○ ○
WINDPROOF	● ● ○ ○ ○
INSULATION	● ● ● ○ ○
BREATHABILITY	● ● ● ● ●
LIGHTNESS	● ● ● ● ○

COMPOSITION:

- Concealed divisible camlock zip
- Abric with hydrophilic treatment
- Open-topped 3 pockets at the back

FIT: SLIM

TECHNOLOGIES:

- TOUCH DRY

100% TOUCH DRY fabric with hydrophilic treatment which keeps the body dry and thermoregulated. Slim fit and an excellent mechanical fabric elasticity. The modelling cuts are calibrated for the woman in order to underline her shape and keep an high technical nature.

COD: W215100
